01

Mortgage Pre-Approval

The lender reviews your financial situation to determine how much they are willing to lend.

02

House Hunting & Offer

The home buyer locates a home, negotiates the price, and signs a purchase agreement.

03

Loan Application

The borrower completes a loan application with information about the home being purchased.

04

Mortgage Processing

The loan processor gathers all information needed for the loan and creates a file.

05

The underwriting analyzes the loan file to determine if it should be approved or denied.

06

Approval & Closing
